### Description

Kideak is a service based on social guidance and mentoring that aims to help young migrants 18-23 years of age to achieve an integral development. All participants are mentored and receive guidance and training. In addition, if required, accommodation can also be provided.

The aims of the programme are:

- Promote autonomy processes for young people through individualised intervention plans.
- Facilitate their access to institutional and socio-community resources.
- Promote co-responsibility of citizens in the integration process.
- Fight gender gaps by empowering women and promoting egalitarian masculinities.

### Law

[Orden Foral 1/2021](#) approving the implementation of the Kideak experimental programme of comprehensive care for young migrants with no family support in Navarre.

## PROCEDURES

If you are interested in the programme and you think you meet the conditions for admission, talk to your social worker at the Basic Social Services in your district unit. They will direct you.
